2019 SOFTWARE ENGINEER PROGRAM - FULL-TIME

Be a part of a dynamic and diverse team that engineers large-scale, complex and resilient technology solutions that drive our global business. You'll help build and optimize digital applications and systems that support millions of customers, clients and employees worldwide.

When you work at JPMorgan Chase, you're not just working at a global financial institution. You're an integral part of one of the world's biggest tech companies. In 16 strategic technology locations worldwide, our team of more than 50,000 technologists design, build and deploy everything from enterprise technology initiatives to big data and mobile solutions, as well as innovations in electronic payments, cybersecurity, machine learning and cloud development. As a firm, we're partnering with FinTech and Silicon Valley tech firms to deliver cutting-edge solutions to our clients and customers. Our $10.8 billion annual investment in technology enables us to hire people to create innovative solutions that will not only transform the financial services industry, but also change the world.

What to expect

Launching your career in our Software Engineer Program means you will:

- Start with an in-depth induction program that teaches you about our businesses, builds on your knowledge of development methodologies, and sharpens your professional skills.
- Dive head-first into creating innovative solutions that make a difference for our customers, clients and employees.
- Create and improve the design, analytics, coding and testing for high-quality software and new products.
- Own projects end-to-end, keeping teams and stakeholders up to speed on the progress of what's being developed.
- Work and share ideas, information and innovation with our team of technologists from all over the world.
- Develop through on-going training, mentorship and access to senior leaders.
- Participate in our agile Force for Good teams to develop real-world technology solutions for non-profit organizations through a series of "side" projects over several months.
- Join an inspiring and curious team of technologists who will support you in developing new skills, experiencing new projects and businesses, and taking your career where you want to go.

Locations you may join:

Columbus, OH	New York, NY
Chicago, IL	Plano, TX
Brooklyn,	San Francisco, CA
Houston, TX	Tampa, FL
Jersey City, NJ	Newark/Wilmington, DE

About you

If you're ready to put your passion for technology to work in a way that makes a real difference, you'll find your place in our Software Engineer Program.

Key skills include:

- Computer Science and/or Engineering majors are preferred while other majors may be considered
- Pursuing a B.A., B.S. or 5th year M.A. or M.S. with expected graduation of December 2018 or June 2019 or participating in a JPMorgan Chase-sponsored training program
- A well-rounded academic background with a preferred minimum cumulative GPA of 3.2 (or prior participation in JPMorgan Chase-sponsored training program)
- Foundational knowledge of programming languages (e.g., Python, Javascript, Java, C++, C#), databases, data structures and algorithms
- Strong interpersonal and communication skills
- Ability to thrive in a fast-paced, collaborative environment
- Relevant internship experience and leadership in school or community organization

This role is not eligible for employer immigration sponsorship. If you will require employer immigration sponsorship after completing your degree, you do not meet the basic requirements of this full-time role.

Join us

At JPMorgan Chase, we're creating positive change for the diverse communities we serve. We do this by championing your innovative ideas through a supportive culture that helps you every step of the way as you build your career.

We value the unique skills of every employee, and we're building a technology organization that thrives on diversity. We encourage professional growth and career development, and offer competitive benefits and compensation. If you're looking to build your career as part of a global technology team tackling big challenges that impact the lives of people and companies all around the world, we want to meet you.

What's next?

We will review applications as they are received and extend offers on a rolling basis. We strongly encourage that you apply early since programs will close as positions are filled.
